

GIRLS CO-ORDINATOR REPORT- 2020

Well what a year it been for everyone.

The summer 2020 season started off really well with The Basin Wildcats entering 23 teams into the girl's competition. The 23 teams consisted of 173 girls, the most in my time at the club and something we should all be very proud of.

The season ended without finals or any real closure and was a shame for all the kids involved, but also for those that were playing in their final season of an age group, the season where they hopefully play at the highest level before moving up.

There was also a lot of work that went into the winter season that never eventuated. So I would like to thank the age coordinators (Brent – 8's, 10's and under 12's and for the Tony U23's), and coaches for their efforts in preparing for this season.

So the summer 2021 season has kicked off, and it's fantastic to see the smiles on the kids faces again. It didn't happen without pain and a lot of stress. To put the teams together in less the 14 days was a fantastic achievement by all involved. Yes it would have been nice to go and watch the players and talk to all the coaches but unfortunately time did not permit us. Let's hope everyone understands and is thankful our kids are back on the courts, playing the game they love.

Finally, This growth can't continue without the help from a lot of volunteers, so please if you can help, please reach out to the committee.

Go Wildcats!!!!

Thank you
Girls Co-ordinator
Jason Clemow
